Join our creative and dynamic international team as a:

Junior Payment Analyst (m/f/x) €45.000 - €55.000 p.a

Put your analytical mindset and data skills to work in this impactful role. You'll dive deep into our payment data, uncover insights, and help drive decisions that shape user experience and business performance. Our premium dating sites boast over 50 million members worldwide, ensuring a responsive, agile and international working environment.

Who we are

- A global leader in premium online dating
- We have multiple premium products in over 30 countries
- We are a team of over 150 people from 40 different nations with English as our working language
- We have a flat hierarchy and focus on getting the right things done together

What we offer

- Training and experience in the sought-after payments industry
- State-of-the-art data technologies
- The perfect balance of autonomy and support
- Strong potential to make an impact in a small but high-profile team
- A fun and truly international working environment
- Germany based, fully remote
- Brand new hub at Heimeran Tower in Munich with panoramic skyline views

Your role

- Monitor and analyze payment performance and build reports to identify trends, issues, and opportunities for optimization
- Support projects such as payment provider migrations, A/B testing of (new) payment methods, and integrations of 3rd party solutions
- Collaborate with external stakeholders to improve data quality, consistency, and reporting accuracy
- Become the company's go-to payment system data expert, providing analysis and strategic input

You

- A degree in a quantitative field (e.g. data sciences, statistics, mathematics, or a related discipline) or equivalent practical experience
- Strong logical and analytical skills, with hands-on experience in data analysis
- Practical experience with Excel and SQL a must with BigQuery and Tableau beneficial. This will likely be your first or second full-time role.
- Able to thrive in a fast-paced, collaborative and remote-first environment
